Vacuum Systems 2. COUPLING DEVICES a. Fifth Wheels b. Pintle Hooks c. Frotection against shifting c. Fuel tender of the load or durangage can fall onto the roadway. b. Protection against shifting dargo 7. STEERING MECHANISM a. Any exhaust system determined to be leaking at a point forward of or directly below the driver/sleeper compariment. b. A bus exhaust system determined to be leaking at a point forward of or directly below the driver/sleeper compariment. b. A bus exhaust system leaking or discharging to the atmosphere in violation of standards (1), (2) or (3). No part of the exhaust system of any motor vehicle shall be so located as would be likely to result in burning, charring, or damaging the electrical wiring, the fuel supply, or any combusible part of the motor vehicle. 9. FRAME a. Firame Members b. Tire and Wheel Clearant c. Adjustable Axie Assembles (Siding Subframes) Subframes) Subframes) 9. LICHTING DEVICES a. Highting devices and reflectors required by Section gashle be operable. c. Adjustable Axie Assembles Subframes) Subframes) Subframes Subfra	, 1 55		OK REPAIR D			OK N	EPAR DATE	ITEM
b. Parking Brake System c. Brake Drums or Rotors d. Brake Hose e. Brake Tubing Device g. Tractor Protection Valve h. Air Compressor i. Electric Brakes j. Hydraulic Brakes k. Vacuum Systems 2. COUPLING DEVICES a. Fifth Wheels b. Pintle Hooks c. Drawbar/Towbar Tongue e. Safety Devices f. Saddle-Mounts 3. EXHAUST SYSTEM a. Any exhaust system determined to be leaking at a point forward of or directly below the driver/sleeper compartment. b. A bus exhaust system determined to be leaking at a point forward of or directly below the driver/sleeper compartment. b. A bus exhaust system leaking or discharging to the atmosphere in violation of standards (1), (2) or (3). No part of the exhaust system dangle electrical wiring, the fuel supply, or any combustible part of the motor vehicle. b. Profine Holes c. Fuel tank filler cap missing c. Fuel tank securely attached Assemblies (Slicting Subframes) 10. TIRES a. Tires on any steering and of a power unit. b. All other tires. 11. WHEELS AND RIMS a. Lock or Side Ring b. All other tires. 11. WHEELS AND RIMS a. Lock or Side Ring b. Protection against hifting cargo can fall onto the roadway. b. Protection against hifting cargo can fall onto the roadway. b. Protection against hifting cargo can fall onto the roadway. b. Protection against hifting cargo can fall onto the roadway. b. Protection against hifting cargo can fall onto the roadway. b. Protection against hifting cargo can fall onto the roadway. b. Protection against hifting cargo can fall onto the roadway. b. Protection against hifting cargo can fall onto the roadway. b. Protection against hifting cargo condition of loading such that the spare tire or any part of the load or dunnage can fall onto the roadway. b. Protection against hifting cargo condition of loading such chart the spare tire or any can fall onto the roadway. c. Faethe	VI		101			1	100	
c. Brake Drums or Rotors d. Brake Hose e. Brake Tubing f. Low Pressure Warning Device g. Tractor Protection Valve h. Air Compressor i. Electric Brakes i. Hydraulic Brakes i. Hydraulic Brakes i. Hydraulic Brakes c. Fith Wheels b. Pintle Hooks c. Drawbar/Towbar Eye d. Drawbar/Towbar Tongue e. Safety Devices f. Sadel-Mounts 7. STEERING MECHANISM a. Any exhaust system determined to be leaking at a point forward of or directly below the directly of standards (f), (2) or (3). c. No part of the eard or boot and as would be likely to result in burning, charring, or amy combustible part of the motor vehicle. D. Fivel tank securely attached attached c. Fivel tank securely attached attached c. Private Tubing c. Fivel tank securely attached attached c. Aigustable Ayde Assemblies (Slding) Subframes) 10. TIRES a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a power unit. b. All other tires. a. Tires on any steering and of a pow	4		1			X		a. Frame Members
d. Brake Hose e. Brake Tubing Device g. Tractor Protection Valve h. Air Compressor i. Electric Brakes j. Hydraulic Brakes k. Vacuum Systems 2. COUPLING DEVICES a. Fifth Wheels b. Pintle Hooks c. Drawbar/Towbar Tongue e. Safety Devices f. Saddie-Mounts 3. EXHAUST SYSTEM a. Any exhaust system determined to be leaking at a point forward of or directly below the driver/sleeper compartment. b. A bus exhaust system determined to be leaking at a point forward of or directly below the driver/sleeper compartment. b. A bus exhaust system determined to the leaking at a point forward of riferedive, selecting determined to be leaking at a point forward of or directly below the driver/sleeper compartment. b. A bus exhaust system leaking or discharging to the atmosphere in violation of standards (1), (2) or (3). c. No part of the verbust in burning, charring, or damaging the electrical wiring, the fuel supply, or any combustible part of the motor vehicle. d. Brake Hose attached Assemblies (Sliding Subframes) 10. TIRES a. Tires on any steering at 11. WHEELS AND RIMS a. Part(s) of vehicle or condition of loading such that the spare tire or any part of the load or dunnage can fall onto the roadway. b. Protection against shifting agago 7. STEERING MECHANISM a. Steering Mheel Free Play b. Steering Column c. Front Axle Beam and All Steering Components Other Than Steering Column determined to be leaking at a point forward or or directly below the driver/sleeper compartment. b. A bus exhaust system determined to be leaking at a point forward or or directly below the driver/sleeper compartment. c. Front Axle Beam and All Steering Components Other Than Steering Column determined to be leaking at a point forward or or directly below the driver/sleeper compartment. c. Front Axle Beam and All Steering Components Other Than Steering Column determined to be leaking at a point forward or or directly below the driver/sleeper compartment. b. A bus exhaust system determined to be leaking at point or directly below the driver/sleeper compar	1	c. Brake Drume or Botors	100 at 1	b. Fue	el tank filler cap missing	Y	A	
e. Brake Tubing f. Low Pressure Warning Device g. Tractor Protection Valve h. Air Compressor i. Electric Brakes i. Hydraulic Brakes k. Vacuum Systems 2. COUPLING DEVICES a. Fifth Wheels b. Pintle Hooks c. Drawbar/Towbar Eye d. Drawbar/Towbar Tongue e. Safety Devices f. Saddle-Mounts 3. EXHAUST SYSTEM a. Any exhaust system determined to be leaking at a point forward of or directly below the driver/sleeper compartment. b. A bus exhaust system leaking or discharging to the atmosphere in violation of standards (1), (2) or (3), c. No part of the exhaust system of any motor vehicle shall be so located as would be likely to result in burning, the fuel supply, or any combustible part of the pnotor vehicle. S. LIFITING DEVICES All lighting devices and reflectors required by Section 393 shall be operable. S. LIFITING DEVICES All lighting devices and reflectors required by Section 393 shall be operable. 6. SAFE LOADING a. Part(s) of vehicle or condition of loading such that the spare tire or any part of the load or drunnage can fall onto the roadway. b. Protection against shifting and a steading such that the spare tire or any between the roadway. b. Protection against shifting as stated pertaining to any crack, discoloration or vision or cargo. 7. STEERING MECHANISM a. Steering Column c. Front Axle Beam and All steering Column C	N		5.1.34			10	4	
f. Low Pressure Warning Device g. Tractor Protection Valve h. Air Compressor i. Electric Brakes j. Hydraulic Brakes k. Vacuum Systems 6. S. AFE LOADING a. Part(s) of vehicle or condition of loading such that the spare tire or any part of the load or dunnage can fall onto the roadway. b. Pintle Hooks c. Drawbar/Towbar Eye d. Drawbar/Towbar Tongue e. Safety Devices f. Saddle-Mounts 7. S. TEERING MECHANISM a. Steering Wheel Free Play b. Steering Collumn c. Front Axie Beam and All Steering Collumn determined to be leaking at a point forward of or directly below the driver/sleeper compartment. b. A Due schaust system leaking or discharging to the atmosphere in violation of standards (1), (2) or (3). c. No part of the electrical wiring, the fuel supply, or admanging the electrical wiring, the fuel supply, or any combustible part of the motor vehicle. 7. Steering System 8. SUSPENSION a. Any U-bolt(s), spring hanger(s), or orther axie positioning part(s) cracked, broken, loose or missing resulting in shifting of an axie from its normal position. b. Spring Assembly c. Floration devices and reflectors required by Section 393 shall be operable. 6. SAFE LOADING a. Part(s) of vehicle or condition of loading such that the spare tire or any part of the load or dunnage can fall onto the roadway. b. Protection against shifting cargo 7. STEERING MECHANISM a. Steering Wheel Free Play b. Steering Collumn c. Front Axie Beam and All Steering Collumn d. Steering Gear Box e. Pitman Arm d. Steering Gear Box e. Pitman Arm f. Power Steering g. Ball and Socket Joints h. Tire Rods and Drag Links i. Nuts j. Steering System 8. SUSPENSION a. ANY U-bolt(s), spring hanger(s), or other axie position, be positioning part(s) cracked, broken, loose or missing resulting in shifting of an axile from its normal position. b. Spring Assembly c. Tracking Components. Collumn collumn d. Steering Components Other Than Steering Collumn d. Steering Collumn c. Front Axie Beam and All Steering Collumn d. Steering Collumn c. Front Axie Beam and All Steer	NA		F			2 4	1. 1	
Device G. Tractor Protection Valve h. Air Compressor i. Electric Brakes j. Hydralic Brakes k. Vacuum Systems 2. COUPLING DEVICES a. Fifth Wheels b. Pintle Hooks c. Drawbar/Towbar Eye d. Drawbar/Towbar Tongue e. Safety Devices f. Safety Devices for Steering MECHANISM a. Any exhaust system determined to be leaking at a point torward of or directly below the driver/sleeper compartment. b. A bus exhaust system detaking or discharging to the atmosphere in violation of standards (1), (2) or (3) or, No part of the exhaust system of any motor vehicle shall be so located as would be likely to result in burning, charring, or damaging the electrical wiring, the fuel supply, or any combustible part of the motor vehicle. A In Igning devices and reflectors required by Section and freflectors required by Section and freflectors required by Section and Sas shall be operable. 6. SAFE LOADING a. Part(s) of vehicle or condition of loading such that the spare tire or any part of the load or dunnage can fall onto the roadway. b. Protection against shifting cargo 7. STEERING MECHANISM a. Steering Medel Free Play as Steering Column c. Front Axle Beam and All Steering Column d. Steering Gear Box e. Pitman Arm d. Steering Gear Box e. Pitman Arm f. Power Steering g. Ball and Socket Joints h. Tie Rods and Drag Links i. Nuts i. Nuts i. Nuts Steering System 3. SUSPENSION a. Any U-bolt(s), spring hanger(s), or other axle positioning part(s) cracked, broken, loose or missing resulting in shifting of an axle from its normal position. b. Spring Assembly c.
